

SIGB SNOW TEST **CHAMPOLUC**

2026

SIGB Snow Test

Champoluc

26-30 January

Report & Stats

Champoluc/Monterosa 2026: New venue and a welcome return to Italy

The SIGB Snow Test hadn't been hosted in Italy since the Covid virus avalanched the planet, so a return to the Italian Alps and all the good things that go with them certainly seemed appropriate. Monterosa is a fabulous place to slide (and of course to eat and drink), but would it make a suitable Snow Test venue? In short, a big yes.

Like us, many Test attendees seemed to rate the week highly, so we'd like to briefly review the event and some factors that helped make it work.

We were given a great welcome – the Monterosa resort management were super helpful in facilitating what we asked for to bring the event here. Some examples:

- a groomer garage was cleared (and heated) for the boot room
- we were given access to their snow-making plant room for ski storage
- great discounts at cafes and for lift passes
- trains ran early and late for us
- parking charges suspended
- tons of snow made and moved to make the site

But we also had fantastic co-operation from so many businesses on and off the mountain and Champoluc made us feel very welcome - hugely appreciated by all of us.

Behind the scenes, long-time local (UK-originated) holiday company Ski Champoluc had oiled the community wheels, spreading the word that we were worth having there. At the event itself they provided the kind of help we could only have dreamed of – skidoos and human muscle

at load in and load out – it would have been a very different experience for us without them.

Huge thanks to Ski Champoluc and Monterosa for all their help

What worked well and what needs reviewed?

- The weather was good, with cold temperatures and good snowfall during the week.
- Having a fast chairlift next to the site with easy access to a variety of pistes allowed much faster test turnarounds
- Off-piste opportunities were easy to access – but sharks were a problem after fresh snow
- Pre-arranged discounts at cafes were very welcome though prices here are reasonable anyway.
- For the first time, the test became a four day event, leaving the Friday for social skiing or pre-arranged testing. Overall this was a success and allowed attendees to have a chance of some recreational skiing.
- The Snow Test scoring app – this had some improvements but had some problems too. It had been completely rebuilt on new digital architecture, which in many ways improved it but also led to some frustrating technical glitches and lost scores/drafts. This is already being addressed and will not be a problem next year.
- Overall test stats are lower than expected due to the problems with the app, though in

many cases lost draft data was retrieved – it may not all of have been finally submitted though.

- We trialled the idea of a group meal for everyone on the last night of testing – this was really well attended, and was clearly popular as a concept. However, with over 100 of us arriving together, it seemed the restaurant struggled to provide enough food at the same time for everyone. So if we are to repeat this idea, we'll need to review how it's organised. We'll update when we know more.
- Site considerations. Overall the site was excellent – with good ski lift, piste and café access. The groomer garage boot room was a success – much better than a tent and we did not have to rely on a diesel heater.
- At set up we had to revise the site plan quite extensively when the flattened test site was not size/shape of our measured expectations.
- The open forum meeting in Bar du Soleil was very well attended on Wednesday night and there was a more or less unanimous decision to bring the Test back to Champoluc and Monterosa next year.
- The meal evening raised valuable funds for the Snow Camp charity.

Dates for next year are 25-29 January 2027. If you have ideas or comments on the Test, pls email us at info@hillsideoutside.com.

Test Reports

This document contains general test information for all attending organisations. It includes:

1. General statistics and test info
2. Average results of all skis by category
3. List of skis by brand
4. List of skis by category

For Test organisations (retailers & media): Your specific results, based on all tests by your group, have already been supplied as separate pdfs.

1. Summary of all tests by brand
2. Summary of all tests by tester
3. Summary of all tests by category
4. Average of all tests by category and model

NB If you notice mistakes or anomalies with specific test results, get in touch and we will correct.

Pooled Group:

If you signed up to the pooled group, and submitted test records, you will have received a list of the averages of

all tests, by category and model for all participants. (For participating groups only.)

Ski Brands:

Your summary of all tests by category (no tester names) has been supplied as a separate pdf.

Facts and Figures from the 2026 SIGB Snow Test

- 111 (145) individual testers
- 11 (8) media test organisations
- 26 (32) retailer test groups
- 19 (19) ski brands
- 614 (643) test skis
- 181 (207) test boots
- 1265 (1162) test results recorded (skis & boots).
